Nutrition Reviews: D.B. McCormick, Contributing Editor

1. Vol. 28: 1970
 - .Covalently bound flavin-adenine dinucleotide of succinate dehydrogenase and the influence of dietary flavin. 23-25
 - .Factors influencing cholesterol biosynthesis in rat liver. 49-51
 - .Fatty acid synthesis and mitochondrial localization. 106-108
 - .Metabolism of pyridoxine in the mouse. 163-165
 - .Pelargonate derivatives as precursors of biotin. 189-190
 - .Vitamin D stimulation of calcium-dependent adenosine triphosphatase. 269-271
 - .Prothrombin synthesis in the rat. 271-275
 - .Plasma levels of apoceruloplasmin and holoceruloplasmin in copper-deficient and normocupremic rats. 291-293
2. Vol. 29: 1971
 - .Intestinal calcium transport mediated by vitamin D. 41-43
 - .Biotin and protein biosynthesis. 93-95
 - .Catabolites of thiamine from the rat. 119-121
 - .Effect of fasting on ribosomal control of protein synthesis in rat tissues. 173-175
 - .Enhancement of liver glucose-6-phosphate dehydrogenase by dietary carbohydrate and insulin. 210-213
 - .Mobilization of liver iron by ferroxidase I (ceruloplasmin). 250-252
3. Vol. 30: 1972
 - .1,25-Dihydroxycholecalciferol, a biologically active metabolite of vitamin D₃.

- 14-16
.Bioflavonoids as a growth factor for the cricket. 65-67
.Two physiological forms of human retinol binding protein. 90-92
.Fate of vitamin B₆ in the I-strain mouse. 164-167
.A plasma protein which increases with vitamin K deficiency. 211-213
.Biosynthesis of pyridoxol in *Escherichia coli*. 238-240
.Dietary control of microsomal stearyl-CoA desaturation in rat liver. 240-242
4. Vol. 31: 1973
.Calcium transport and mobilization mediated by 1,25-dihydroxycholecalciferol. 58-59
.Riboflavin deficiency in *Tetrahymena pyriformis*. 61-63
.Ascorbate stimulation of tyrosine hydroxylase formation. 93-94
.Dietary effect on liver fatty acid synthetase. 96-97
.A specific protease for pyridoxal enzymes. 98-99
.Malonyl-CoA and fatty acid synthesis. 129-130
.Regulation of 25-hydroxycholecalciferol metabolism by inorganic phosphate. 188-190
.The time-course of changes in carbohydrate and lipid metabolism. 222-223
5. Vol. 32: 1974
.Reversible inactivation of thiaminase I by thiamine. 22-23
.Stimulation of ketogenesis in rat liver mitochondria by long-chain fatty acyl-CoA esters. 86-87
.Abnormal fatty acid synthesis associated with faulty utilization of vitamin B₁₂. 204-206
.Forms of folate in the monkey. 212-213
.Effects of α -tocopherol and analogs on cyclic-AMP systems. 214-215
.Properties of vitamin D-dependent calcium binding protein from chick duodenal mucosa. 249-250
6. Vol. 33: 1975
.Hormonal regulation of formiminotransferase. 57-58
.Effect of vitamin B₁₂ deprivation on CoA intermediates related to propionate metabolism. 85-87
.Lengths of poly- γ -glutamyl chains in natural folate. 15-117.
7. Vol. 34: 1976
.Impairment of mitochondrial fatty acid oxidation by chronic ethanol ingestion. 23-25
.Tryptophan catabolism by liver tryptophan pyrrolase. 27-29
.Lipid peroxidation and glutathione peroxidase in the liver of cholesterol-fed rats. 50-52
.Cholesterol feeding affects microsomal metabolism of steroids. 88-89
.Protein inhibitor of kidney hydroxyvitamin D₃-1-hydroxylase. 284-286
8. Vol. 35: 1977
.Effect of dietary α -tocopherol in aging rats. 50-52
.Uptake of proteins from the small intestine of the suckling rat. 77-79
.The protein-catabolic state of hepatocytes isolated from the rat. 113-115
.Urinary riboflavin metabolites from rats. 281-283
9. Vol. 36: 1978

- .Vitamin K reduction precedes epoxidation and prothrombin synthesis. 20-21
 - .Mode of antagonism of vitamin K by anticoagulants. 289-291
 - .Biosynthesis of riboflavin. 341-343
 - .Nature and activity of vitamin B₆ bound in heat-processed foods. 346-348
10. Vol. 37: 1979
- .Regulation of acetyl-CoA carboxylase.
 - .Previtamin D. from skin. 203-205
 - .Retinol involvement in epidermal glycoprotein synthesis. 265-267
 - .Coenzyme F₄₂₀: Another example of the diversity in structure and function of natural flavins.

39. McCormick, D.B., Bowers-Komro, D.M., Bonkovsky, J., Larson, C. and Zhang, Z. (1990). Characteristics of a transporter for uptake of vitamin B₆ into mammalian cells: Isolation of B₆-binding proteins from the brush-border membranes of rat renal proximal tubular epithelial cells. Internatl. Sym. on Vitamin B₆ and Carbonyl Catalysis (Osaka), October
40. McCormick, D.B., Nakano, H. and Hartman, H. (1991). Functions of divalent metal ions and arginyl residues in the anionic substrate sites of mammalian flavokinase and FAD synthetase. 1st Internatl. Cong. on "Vitamins and Biofactors in Life Science," (Kobe), September
41. McCormick, D.B. (1992). The meaning of nutritional essentiality in today's context of health and disease. Twelfth Ross Research Conference on Medical Issues. Nutritional Essentiality: A Changing Paradigm (Carefree, AZ), December
42. McCormick, D.B. (1994). Vitamin B₆ transport and metabolism: clues for delivery of bioactive compounds. Vitamin B₆ and PQQ Meeting (Capri), May
43. McCormick, D.B. (1995). Use of isolated cell and metabolic techniques applied to vitamin transport and disposition. Workshop on Emerging Technologies for Nutrition Research: Potential for Assessing Military Performance Capability. CMNR/FNB/IOM (Washington, D.C.), May
44. McCormick, D.B. (1996). Use of freshly isolated rat hepatocytes in the study of uptake and disposition of vitamins and their glucosides. International Congress on Hepatocytes --- Applications in Cell Biology, Toxicology and Medicine (Tübingen), September
45. McCormick, D.B. (1998). Recommendations for thiamin, riboflavin, niacin, and biotin. Exp. Biol. Conf. on DRI: Folate, Other B Vitamins and Choline (FNB/IOM) San Francisco, April 6, 1999
46. McCormick, D.B. (1998). Background paper on thiamin, riboflavin, niacin, vitamin B₆, pantothenic acid, and biotin; prepared for Joint FAO/Who Consultation Meeting (Bangkok), September
47. McCormick, D.B. (1999). A trail of research on cofactors: an odyssey with friends. Exp. Biol. Minisym. On Mechanistic Aspects of Vitamin and Coenzyme Utilization and Function (Washington, D.C.), April
48. McCormick, D.B. (1999) Enzymes catalyzing formation of pyridoxal phosphate from vitamin B₆. 10th Internatl. Sym. on Vitamin B₆ & Carbonyl Catalysis. 4th Meeting on PQQ & Quinoproteins (Santa Fe), Oct./Nov.

49. McCormick, D.B. (2000). Cofactor research including contributions by Felicia Wu and other Chinese colleagues. Memorial Symposium for Felicia Wu (Taipei), July
50. McCormick, D.B. (2001). Discussant on "B Vitamins: proposed fortification levels" by L. Allen; prepared by PAHO Consultation on Recommended Nutrient Composition for Fortified Complementary Foods (Washington, D.C.), October
51. McCormick, D.B. (2002). Research opportunities re: thiamin, riboflavin, niacin. NCBA Discovery Symposium, B-Vitamins and Dietary Beef---Future Research Directions (Denver), September

Special Reports

1. Guidelines for Safety Evaluation of Nutrients, Life Sciences Research Office, FASEB, June 1980
2. Feasibility of Identifying Adverse Health Effects of Vitamins and Essential Minerals in Man, Life Sciences Research Office, FASEB, June 1980
3. The Reexamination of the GRAS Status of Sulfiting Agents, Life Sciences Research Office, FASEB, January 1985
4. Health Aspects of Sugar Alcohols and Lactose, Life Sciences Research Office, FASEB, September 1986
5. Diet and Health: Implications and Reducing Chronic Disease Risk, Food and Nutrition Board, NRC/IOM/NAS, National Academy Press, Washington, D.C., 1989
6. Improving America's Diet and Health, Food and Nutrition Board, NRC/IOM/NAS, National Academy Press, Washington, D.C., 1991
7. Dietary Reference Intakes: Folate, Other B Vitamins, and Choline, Food and Nutrition Board, NRC/IOM/NAS, National Academy Press, Washington, DC, 1998
8. Joint FAO/WHO Expert Consultation on Human Vitamin and Mineral Requirements, 2002

Letters to the Editor (Highlander)

1. Keep cats inside. May 29, 2001
2. Article helpful. June 15, 2001
3. Misleading info. July 31, 2001
4. Health article contained errors. Sept. 13, 2001
6. Let's get well? Let's get real. Oct. 19, 2001
7. Professor enjoys Darwin lecture. July 13, 2004

8. Letter misconstrues intent. July 20, 2004

9. Books available on debate. August 10, 2004

10. Wyatt served biological station well. February 17, 2005

11. Diminution of life: Alterable outcome. February 24, 2005
